Your Needs, Our Goal.

Tiger Tek is a premier procurement firm, offering an extensive selection of more than 100,000 products and consumables tailored for Mining, Civil, and Infrastructure projects throughout Australia. With over 20 years of experience, the company boasts a strong track record of success, serving numerous prestigious projects and clients globally.

Companies often face challenges in sourcing appropriate inventory or procuring goods from various suppliers, which can greatly impact their operational efficiency and overall success.

Our solution is to provide a single point of contact for all your purchasing needs, enabling us to effectively address challenges and ensure timely delivery of the right products whenever and wherever you need them.

"Price is what you pay, value is what you get"

OUR APPROACH

Successful procurement relies heavily on expertise. To ensure the smooth functioning of a project, it is essential to partner with a dedicated and experienced supplier like Tiger Tek. We handle your supply challenges, allowing you to concentrate on your primary business activities.

Our Primary Goal is to assist you in reducing expenses while guaranteeing timely delivery of all vital inventory, including mining supplies, infrastructure essentials, complex engineering items, and even minor consumables like coffee or disposable plates - Anything you need, anytime and anywhere.

What Makes Us Different ?

Ability to source from simple to complex items.

Cost saving, product knowledge, support and after-sales care.

Extensive global suppliers network from top-tier brands and our in-house manufacturing facility.

Ease of dealing with a single supplier and consolidated monthly statement.

What We Deliver.

At Tiger Tek, we priorities providing you with a complete procurement solution. Our expert team is fully committed to ensuring timely and seamless delivery of your goods, sourced from reliable suppliers. From the instant we receive your request, we manage every detail of the process, including sourcing, alternative product suggestions, order consolidation, logistics, tracking and post- sales support & warranty.
